SOMETHING NEW.

AN AMERICANIZED EDITION OF THE

ENCYCLOPAIDIA BRITANNICA-FOR MOTE

than a year past the publishers have been collecting data for this great

work, the compilation and arrange-

ment of which have been directed by

gentlemen whose ability and exper-

ience encourage the belief that the publication is in all respects an inval-

uable acquisition. It is contained in

ten large volumes, each subject being

completely and comprehensively, yet

so correctly and concisely, presented

as to promote the highest success of

the work as a standard authority upon

the topics treated. Readers, com-

mentators, students, professional men

and the public will thus be furnished

with the largest measure of informs-

tion in respect to ecience, art, litera-

ture, the law, and kindred subjects in a condensed but attractive form and

without the elimination of any fact

necessary to a fair statement of the

case under consideration. Uselesa

verbiage has been guarded against,

and inconsequential speculation and vain repetition have been avoided. In

s word, space has been suited to the

subject, and the subject to the space

appropriated for its treatment. Mat-

ters of interest fifty years ago, but now of comparative little consequence,

have been "cut down to the bone,"

while the achievements of modern days in all the departments of life aregiven precedence. In addition to informa-

tion of a general character, the work

contains a complete list of American cities, together with a history of each;

also reliable facts regarding their

financial, social and educational ad-

vantages, manufacturing facilities,

productions, population and other facts of importance and value, Bio-

graphical aketches of distinguished Americans, living and dead, brought

down to date, are made a feature of

the work, including those who figured

during the Civil war and in other great movements. An additional festure that will commend itself is the incorporation of a series of ninety-six

explanatory maps, showing every

country in the world, with a separate

map of every State in the Union, highly

colored and revised and corrected up to the latest date. In addition to these, each volume is embellished

with cuts and illustrations. The ty-

pographical work is of the best charac-

ter, the volumes handsomely and

substantially bound. The enterprise

and public spirit to which the public

is indebted for this library of informa-

tion deserves the fullest complement

of recognition and practical acknowl-

edgment. Recognizing the great ad-

vantages of this invaluable work of

reference, we have obtained the ex-

clusive centrol of this "Americanized Encyclopædia Britannica" for this

section, and offer it on the following

easy terms in connection with one

THE SCHEME.

On consideration of your piacing a

subscription to this paper for one

year we will furnish you a set in cloth

binding of the Americanized Encyclo-

pedia Britannica on payment of \$5.00

and your signing a contract to pay

\$2.50 for ten consecutive months-

making thirty dollars in all-thus giving you the best encyclopædia for

the money on the market. These

books can be obtained only in conneg-

tion with a wear subscription to the

year's subscription to our paper:
